Forecast for Saturday 29 Jun 2024

Weather: Often dull and cloudy with patchy outbreaks of rain or drizzle along western facing hills. Some brighter interludes possible towards the southeast of the park.

Chance of cloud-free hill tops above 600m: 20% in the north and west, 40% with some breaks further east mid-afternoon.

Low cloud and visibility: Extensive cloud covering hills over 500-600m, with patches down to 400m in the northwest of the park where the rain and drizzle is more persistent. Moderate to poor visibility for the most part, very poor in drizzle and low cloud.
